```java
12.import java.util.Scanner;

class rectangle
{
        public static void main(String args[])
        {
                Scanner input=new Scanner(System.in);
                System.out.print("Enter no of rows:");
                int rows=input.nextInt();
                System.out.print("Enter no of columns:");
                int col=input.nextInt();
                System.out.print("\nEnter the symbol to be used:");
                char symbol=input.next().charAt(0);
                int i,j;
                for(i=0;i<rows;i++)
                {
                        for(j=0;j<col;j++)
                        {
                                System.out.print(symbol+" ");
                        }
                        System.out.println();
                }
        }
}
```

Output

Clear

```
java -cp /tmp/EZFZeDVCk5 rectangle
Enter no of rows:5
Enter no of columns:5
Enter the symbol to be used:*
* * * * *
* * * * *
* * * * *
* * * * *
* * * * *
|
```
